To secure an entry-level position in the IT industry that allows me to apply and expand upon my technical knowledge and skills in full-stack web development, cybersecurity, and hacking. As a dedicated and enthusiastic student with a strong passion for technology, I am eager to gain practical experience and contribute to the success of an organization. I bring a solid foundation in web development principles and a willingness to learn and adapt to new technologies and methodologies. With excellent problem-solving and analytical abilities, I am confident in my ability to contribute effectively to team projects and deliver high-quality results. My objective is to learn, grow, and make a positive impact while building a successful career in the IT field.
